

Here is the latest news on my mom.

Her MRI came back clear with not other lumps in her chest.

Today she had the dye put in and then the sentinel lymph node along with some more breast tissue was removed. The Node came back cancer free!!!! Praise the Lord! She will meet with the Doctor in 2 weeks to talk about radiation to prevent re-occurrence. They will get the details of the plan then but it looks like 6 weeks of treatment. Continue to pray for her healing from this surgery and strength in dealing with the radiation treatments. Thank-you so much for your prayers for her, Dad and myself.

---

It was a busy day at work with parents coming in and other issues. I have my Africa written and have sent it out to some of my co-workers. I will be working on sending it out to everyone else over the weekend.
