

It was a very busy day. Both of our principals were out. So our ISS teacher was covering along with help from our School Resource Officer. We started the day with a fight and several teachers out. Thankfully some of us got a break mid-day. We went to the district office where our chapter of Education Office Professionals hosted a lunch for the Office Professionals from all the schools. It was a good lunch and a good break. I worked on scheduling set up in the afternoon. Our school secretary stopped in on the way back from a doctor's appointment. She is looking good and feeling good. The doctor says she can come back in 4 weeks. We all had a good time catching up with her and praising the Lord for her recovery.
